## Call of Duty: Infinite Warfare Retribution DLC Available Now, First on PlayStation®4

Fourth DLC Pack Features Four New, Epic Multiplayer Maps, Including Re-Imagined Map, Warhawk

New Co-Op Experience "The Beast from Beyond" Marks Epic Conclusion to Infinite Warfare Zombies Experience

SANTA MONICA, Calif.--(BUSINESS WIRE)-- *Call of Duty: Infinite Warfare Retribution*, the fourth DLC Map Pack for 2016's No. 1 top-selling console video game in the U.S. (excluding hardware bundle sales), is available now on the PlayStation® Network for the PlayStation®4. Published by Activision and developed by Infinity Ward, *Retribution* features four new multiplayer maps, and the highly anticipated culmination of the *Infinite Warfare* zombies storyline called "*The Beast from Beyond*," which takes players to an abandoned military base on a distant ice planet to fight the undead.

"Our mission from the start was to craft a level of customization for *Infinite Warfare* players to suit their combat styles, across diverse multiplayer maps where all types of players would feel rewarded. *Retribution* delivers on that promise, and we can't wait to see the community jump in," said Dave Stohl, Studio Head of Infinity Ward. "Additionally, *Retribution* marks the final chapter of our zombies story, so we're taking players to a cool new setting, full of twists and turns, where they'll uncover the true motivation behind our villain's motives."

*Retribution* presents the conclusion to the five-part *Infinite Warfare* zombies experience, *The Beast from Beyond*. The thrilling co-op mode features the return of Willard Wyler, the enigmatic movie director villain portrayed with voice and likeness by Paul Reubens (Pee-wee's Big Holiday, Gotham). Wyler has now taken our four protagonists to a desolate military space station on a distant ice planet, where they'll battle hordes of the undead, along with an enemy breed longtime *Call of Duty* fans will recognize, to uncover the real truth behind Wyler and his horror films. *The Beast from Beyond* also features new weapons, imaginative traps and more, in addition to the hallmark, frenetic *Call of Duty* action, with Seth Green (Robot Chicken, Austin Powers) as "Poindexter;" Ike Barinholtz (Neighbors, Suicide Squad) as "AJ;" Jay Pharoah (White Famous, Saturday Night Live) as "Andre;" and Sasheer Zamata (Saturday Night Live, Inside Amy Schumer) as "Sally," all making a return from the previous installments.

Retribution also features four new multiplayer maps:

- Carnage A post-apocalyptic race track along the California coast, *Carnage* features long sightlines and environmental hazards, including a fire trap players can activate on command to roast their enemies.
- Heartland In Heartland, teams will go head-to-head in a simulation of small town America that is a re-imagining of the classic map, Warhawk from Call of Duty: Ghosts. Players can pop into the local ice cream shop for a treat, and then take out enemies down the street with a Black Hole Generator.
- Altitude Set in a high-end, sky high shopping mall located on the edges of the universe, *Altitude* thrusts teams around a chaotic center where quick flank routes are key to victory. Additional features include floating lush waterfalls that border the map.
- Depot 22 Depot 22 is a watering hole at the end of civilization that focuses on mid-ranged encounters waged in a medium-sized, three-lane map. Players can battle in the cantina for close-quarter combat or engage with enemies wall-running off of a moving train.

*Call of Duty: Infinite Warfare Retribution* DLC Map Pack is available for a great value via the *Call of Duty: Infinite Warfare* Season Pass, which can be purchased on its own or obtained as part of the Legacy Pro or Digital Deluxe editions of the game.
