

## World of Warcraft®: Shadowlands Becomes Fastest-Selling PC Game of All Time

December 8, 2020

*Blizzard Entertainment's latest release achieves sky-shattering sales record with more units sold through as of first day of launch than any other PC game in history*

*Player engagement in World of Warcraft reaches highest levels in a decade*

IRVINE, Calif.--(BUSINESS WIRE)--Dec. 8, 2020-- Starting November 23, *World of Warcraft*® players around the globe began their journey into the unknown reaches of Azeroth's afterlife in *Shadowlands*, the game's highly anticipated eighth expansion. Today, Blizzard Entertainment announced that as of the first full day of *Shadowlands*' launch, more than 3.7 million units had sold through globally, making it the fastest-selling PC game of all time industry-wide.\*

The previously announced industry record-holder, Blizzard's own *Diablo*® III, sold through more than 3.5 million copies as of its first day of release. Today's announcement confirms that *Shadowlands* has surpassed that milestone as well as any other reported sell-through achievement for the same time frame among all PC games historically.

In addition, *World of Warcraft* has continued to see strong engagement from the global community franchise-wide:†

- In the months leading up to the expansion's release and the time since launch, the game reached and has sustained its **highest number of players on monthly or longer-term subscriptions** compared to the same period ahead of and following any *WoW* expansion in the past decade, in both the West and the East.
- Players have spent **more time in Azeroth year to date** than in the same period of any of the last 10 years.
- In addition, total player time in game this year to date has nearly doubled compared to the same period last year.

"It's been a huge thrill to enter this whole-new dimension of the Warcraft universe together with millions of players around the world," said J. Allen Brack, president of Blizzard Entertainment. "It's been equally rewarding to see players enjoying all of the new features and content in *Shadowlands*—whether they're exploring new aspects of their characters with the Covenants or setting foot in *WoW* for the first time with the new-player experience in Exile's Reach—and there's much more to come."

The launch of *Shadowlands* is just the beginning of an adventure unlike anything ever before experienced in *World of Warcraft*, with much more in store for players in the weeks and months ahead. Starting today, *Shadowlands* Season 1 commences when the gates to the expansion's first raid, **Castle Nathria**—the gothic stronghold of Revendreth—open in Normal and Heroic difficulties. **Mythic Keystone dungeons** will also become available, tempting Azeroth's heroes with greater rewards for taking on increased challenges. This season's dungeon affix, **Prideful**, turns heroes' own sense of accomplishment against them in the form of ego-wrought manifestations. In addition, players will be able to put their skills to the ultimate test in Arenas and Battlegrounds as the expansion's first **Rated PvP** season begins.

### **About World of Warcraft: Shadowlands**

*Shadowlands* is the eighth expansion for Blizzard Entertainment's acclaimed massively multiplayer online role-playing game. Launched worldwide starting on November 23, *Shadowlands* sends players to the unexplored expanse of Warcraft's afterlife, where the machinations of Sylvanas Windrunner and the malevolent Jailer threaten the very balance of life and death. There, players will explore disparate realms of wonder and horror; forge a bond with one of the *Shadowlands*' four ruling **Covenants** in exchange for otherworldly power; delve into the Maw to rescue wrongly tormented souls; and ascend the twisting **Tower of the Damned** in search of legendary gear to help them restore balance to the beyond.

*World of Warcraft: Shadowlands* is available digitally in multiple editions, including the expansion-only **Base Edition** (\$39.99); the **Heroic Edition** (\$59.99), which also comes with a *Shadowlands*-level character boost and Ensorcelled Everwyrn mount—additionally offering a quest to earn a new transmogrification set; and the **Epic Edition** (\$79.99), which adds the Anima Wyrmling pet, Wraithchill cosmetic weapon effect, Eternal Traveler's Hearthstone, and 30 days of game time.
