SANTA MONICA, Calif.--(BUSINESS WIRE)-- The first DLC pack for **Call of Duty®: Advanced Warfare, Havoc**, is on the way. The epic DLC pack from Activision Publishing, Inc., a wholly owned subsidiary of Activision Blizzard (Nasdaq: [ATVI](#)), and Sledgehammer Games will be available first, exclusively on Xbox LIVE® for the Xbox One, the all-in-one games and entertainment system from Microsoft and Xbox 360® video game and entertainment system from Microsoft beginning on January 27, with other platforms to follow.

"We're looking forward to playing the new DLC content with fans. The response to Advanced Warfare has been amazing, and the creativity and gameplay variety of the content coming in **Havoc** is more exciting than ever," said Michael Condrey, Co-Founder and Studio Head, Sledgehammer Games. "The entire team at Sledgehammer Games is really excited about the release of the **Havoc** and we are ready to kick-off a long DLC season filled with new maps, the new Exo Zombies mode and more," said Glen Schofield, Co-Founder and Studio Head, Sledgehammer Games.

The definitive DLC offering, **Call of Duty: Advanced Warfare Havoc** includes four new, epic multiplayer maps, access to the versatile AE4 directed energy assault rifle, the AE4 Widowmaker custom variant, plus an exciting new Zombies cooperative mode called Exo Zombies, that features a story told through the eyes of four employees of the Atlas corporation, played by a celebrity cast consisting of John Malkovich (In the Line of Fire, RED, Burn After Reading), Bill Paxton (Aliens, Titanic, Edge of Tomorrow), Rose McGowan (Planet Terror, Scream), and Jon Bernthal (Fury, The Walking Dead). The actors provide their voice over and likeness in a dark and cinematic experience new to **Call of Duty: Advanced Warfare**. Players enter a world where a DNA bioweapon unexpectedly spawns a bloodthirsty, ravenous mutant horde infecting an entire secret Atlas research facility and sending personnel running for their lives. Following a failed evacuation, four survivors, un-trained and underprepared, must face the most vicious mutations ever unleashed. The Exo Zombies co-op mode ushers in a new breed of Zombies and a truly unique experience, coming first to the **Havoc** DLC Pack.

**Havoc** delivers four new, exotic and diverse multiplayer maps set around the globe tailor-made for players to unleash their exoskeleton's abilities, including —

- **Core:** Deploy to the Gobi desert where the ravaged ruins of a nuclear fusion plant set the stage for a high-octane warzone. Take down enemies through the wreckage in long-range combat or get up-close and personal in the tunnels surrounding the central turbine. Activate decontamination drones using the map-based scorestreak to help clean out the competition.
- **Urban:** Prepare yourself for brutal, high-speed combat in Dallas Ward 3, a future mega structure, funneling players into a close-quarters free-for-all. This modular compound's verticality unleashes the exoskeleton's capabilities. Stay focused during the timed event as blast doors alter the map's flow and sightlines.
- **Sideshow:** In the shadow of Devil's Tower, Wyoming, this abandoned inn's open layout amplifies its creep factor. Blast your way through the clown inn with close-quarters battles or use long-range site-lines from the mining facilities and natural terrain. Use the map-based scorestreak to activate the lights, music, and magic of the clown marquee and rain down a barrage of rainbow smoke-trailed cannonballs.
- **Drift:** An idyllic ski resort high in the Rocky Mountains is transformed into a festive high-altitude playground, perfect for an all-out firefight. Make your way to the highly contested over watch in the glass observation deck or take a ride on the carousel to deliver 360 degrees of carnage. Players can use the map-altering timed event to their advantage as an avalanche of snow and debris disorients players, intensifying the battle.
